10. About 75% of the professors say that the institute-assisted collaboration is very good for writing research projects while 25 percent is not satisfied with the collaboration from the institute.
11. In response to this question, 90 percent of the professors agreed that the facility of entertainment and sports in the institute is sufficient.

## **Action taken Report students**

After analyzing the results of the feedback from students and their parents and professors through the questionnaire, after the analysis of the results of the institute which has been reported. The following actions have been taken from them.

1. There is a reduction in the facility of canteen by the students. And there is a shortage of insufficient arrangements for sitting there. In this connection, efforts are being made to improve the canteen's building by the institute and to make more arrangements for sitting of the students.
2. shortage of student explaining the subject of guest faculty. For this, the guidance of guest faculty was given guidance by The Principal.
3. In question no 6. In the matter of questioning regarding the behavior of the professors, the inadmissibility was done in this regard. In this connection, the principal has been given the path of passage increase the contact with the students themselves, to provide a synergistic and harmonious behavior Try to build
4. The arrangement for students to sit in the reading room in the library is not adequate. In this regard action taken by principal.

## **Action taken Report parent**

Similarly, the following decisions were taken by Principal regarding the relation of Feedback by the Parents

1. Parents said that the results of the examination are very delayed. It is difficult for the student to get admission in the next class. Or one year gets lost. In this regard, the Institute administration repeatedly carries the letter from University. And students are also aware of the problems. The examination is done under the university administration and the result is declared as pre schedule.
2. In response to question number 8, most of the parent had said that since the need for going to online fees has been compulsorily. Since then, we face a lot of problems since people come to the city when many people come to the kiosk center, there is a lot of trouble and electricity goes away, and the whole day is disturbed and the fees are filled again and again. Payment of Commission also seems to be over. Thereby we have a lot of economic losses. For this, arrangements have been made by the Principal to provide facility of filling their forms by computer staff in the institute.
3. Question 6: In the feedback, there is a lack of arrangement for the rooms to sit in the classroom and the size of the class is small. Especially in the case of art faculty, there is a problem. There is no problem in the matter of science, for this, a new building of 8 rooms constructions has been started for the solution of sitting arrangement. Possibly new session will start in 2020-21.
4. In reply to question no. 10, the Principal has been arranged a recovery room for boys & girls, especially due to lack of health to recover. the Recovery Room is contained a bed with drinking water and other facilities and first add box etc.

## **Action taken Report professor**

Following the analysis of the feed back received by the professor, the Action taken by the Principal is below

1.This institute is under scheduled tribe Lok Sabha area, the forest area is over here. Due to this, the highest number of boys & girls from rural areas, who come from about 40 kms away. Educational infrastructure in rural areas is not very good. There is also problem of transportation, but efforts are being made by the Principal to increase the subject and general knowledge of the students of Zero classes, personality development and lecture of guest faculties.

2.Professors have been told to use inadequate Innovative Technique. The institute is situated in the rural area and the knowledge of Hindi language is not very good for most of the students who fall. Therefore students also understand the subject matter through face-to-face communication and they are said to have simplified words in the subject. Using more hi-technology, students are not able to accept the subject well.

3. Some professors, especially in the faculty of art, have been called inadequate meeting arrangements of classes and size of classes. In this regard, in the matter of science and commerce, the process of construction of new 8 classes has been started by PWD, in relation to this arrangement of furniture is also being arranging for their sitting.

4. There is a lack of facility of e-library facility for research studies by the teachers. For this purpose, efforts are being made on the basis of Priority to facilitate library of E-Library by the Principal.

5. The need to open PG classes by the professors of science has been shown. So the student will get facility after completing the constructions.
